EXPERIENCE

UI/UX Designer TechAlmas LLP	Aug 2023 – Present <i>Ahmedabad, Gujarat</i>
--	---

- Design end-to-end UI/UX experiences for mobile apps, websites, SaaS platforms, dashboards, CRM/ERP systems, e-commerce, real estate, healthcare, and education products.
- Translate business requirements into user flows, wireframes, high-fidelity UI, interactive prototypes, and scalable design systems.
- Collaborate with clients, developers, product managers, and stakeholders to deliver user-focused, responsive, and development-ready designs.
- Designed major real-estate and AI-powered SaaS products covering CRM, lead management, dashboards, analytics, collaboration, and workflow automation.

UI/UX Designer Eleorex Technologies	Jan 2023 – Jul 2023 <i>Ahmedabad, Gujarat</i>
---	--

- Designed web and mobile interfaces, user flows, layouts, and visual experiences based on business and product requirements.
- Collaborated with team members to refine designs and support the product development process.

PROJECTS

Real Estate Platform Designed an end-to-end digital platform for the Spanish real-estate market, connecting agents, developers, and partners through a centralized workspace. Designed property listings and search, CRM and lead management, sales pipelines, commission and deal management, collaboration workflows, property portfolios, and responsive interfaces. Created user flows, wireframes, high-fidelity UI, interactive prototypes, and reusable design-system components.

AI-Powered Real Estate SaaS Designed an AI-powered SaaS platform focused on real-estate lead management and agent productivity. Created UX flows and high-fidelity interfaces for AI lead qualification and scoring, WhatsApp lead management, agent inbox, conversation analysis, automated follow-ups, CRM workflows, meeting bookings, analytics, and team performance dashboards. Developed reusable components and prototypes for a consistent product experience.

Education Mobile Application Designed a mobile application for IAS preparation focused on personalized learning and structured study experiences. Designed user experiences for different learner personas with personalized study plans, lectures, mock tests, progress tracking, current affairs, resource libraries, notifications, and multilingual content. Focused on intuitive navigation, minimal interactions, content readability, engagement, and dark-mode usability.
